Overview of the week

I have decided that I am going to change the theme of the Art project a bit (to focus less on feelings. My kids aren't up for it). I want to encourage them in today's project to use all the kinds of art we have used this week, add a little intro to "finding art", Art theory (lines and shapes) and then add Found Objects as the final touch.

1. What kinds of art did we learn about this week?

The themes were

Stained Glass

Sculpture

Pointillism

Collage

Found Art

How can we incorporate all of these into our art today?

Stained Glass: WE will use tracing paper to trace an ordinary object

Sculpture: We will make our object be 3 dimensional

Pointilism: We will use lots of dots and colors in our work

Collage: we will cut out images and paste them into our art

Found Art: We will find artistic lines and shapes in this room. We will use the found objects that they brought in or that I provide.

How to draw a line, and reinforce vocabulary and how lines work

Use this as an art exercise. Have kids draw any lines they see in the room. How many different lines can you find? Do an example on the white board.

Now draw the shapes they see in the room.

Can you find geometric shapes? Organic shapes?

Both??

Lastly Found art object

Found objects themed Song. Use as inspiration when adding our object.

Distribute the art objects.

Glue or place them in your art world. Draw them. Tell a story about them. What do they mean to you?
